"The Flaming Forest"

Story by James Oliver Curwood

A THRILLER OF THRILLERS ! Canada, when the Northwest Mounted first came, is the scene of this big Curwood story. Fights, romance, duty vs. love, a sensational forest fire, amazing rescues, the trials, humors and adventures of Canadian pioneering days—all whirling about a winsome slip of a girl who'll win your heart ! All lovers of real melodrama should see it ! Millions have already followed the story in book form and as a Cosmopolitan Magazine serial.

Extra Special Our Gang Comedy "BURIED TREASURE"

Coming Next Tues., Nov. 15, Dempsey-Tunney Fight Pictures.

COMING NEXT FRI. & SAT.

Lon Chaney in "TELL IT TO THE MARINES."

Local and General

Alston W. I. will give a big supper and dance in the Community hall on Friday, November 18th.

At latest reports Sam Stan- den, who was operated upon recently in Calgary, is making satisfactory progress.

Archie Nimmo, the man who knows the Men Made to Measure Clothing Business from A to Z, will visit Campbell's store Tuesday, Nov. 15th. See this expert and get the goods and fit.

A musical recital by Miss Wilson's pupils will be held in Campbell's hall, under the auspices of the Women's Institute, on December 1st, commencing at 8 p.m. This is an annual event which should not be missed.

Mrs. Wise, convenor of the fancy work committee for the Ladies' Aid bazaar on Nov. 26, would greatly appreciate having all fancy work brought in by Nov. 21st. Donations thankfully received. Same may be handed to Mrs. Wise or to Mrs. Campbell.

A successful meeting of the Women's Institute was held at the home of Mrs. P. O. Sommers on Tuesday, November 8. An interesting paper was given on "The Child of Free Schools" by Mrs. D. Smith. All members please remember your Xmas gift exchange for the next meeting at Mrs. E. Latif's home on Dec. 13th.

Don't fail to see the finest fight pictures ever shown on Wednesday, Nov. 15th, when the Gene Tunney vs. Jack Dempsey strut their stuff at the Champion Theatre. Tom Mix is also going to be there, and the Aradian orchestra is going to delight you with their renderings of all the latest music favorites at 8.15. Nitre at \$3.00.

Forty-one hundred Alberta grass-fed steers shipped by C. & Co., to Chicago recently set a new figure on that market for this class of cattle during the season. These steers sold at \$14.65 per hundred lbs., exceeding the previous high price by 65 cents. The market on the Chicago markets have attracted large shipments of cattle from the western provinces during the past few months.

Champion Theatre has an extra special comedy this week—it's an Our Gang called "Buried Treasure," and what this bunch of kids do to the cannibals will make your kiddies talk it for weeks.

Construction has started on the foundation of the new 2,400,000 Pool terminal at Vancouver. It will be ready for the 1928 crop, and will cost \$200,000.

The annual meeting of the Alberta Wheat Pool will be held on Wednesday, November 23, in Calgary. The reports for the year will be presented to the Pool delegates.

Tuesday, Nov. 15th

L.A. Bazaar

Saturday, Nov. 26

The Ladies' Aid of Champion United Church will hold its annual bazaar in W. C. Hosking's store on Saturday, November 26th, afternoon and evening. The ladies hope to make this the largest and best bazaar ever held in Champion and they are sparing no effort to make it so. The fancy work booth will provide some lovely things, all reasonably priced, so anyone wishing to obtain Christmas presents in fancy work will surely find something in this booth to please. Mrs. Wise has charge of this section with Mrs. McIntyre assisting. Others in charge of booths will be Mrs. F. Smith, home producer; Mrs. F. Caldwell, candy; Mrs. Manhard, plain sewing and apron booth. Mrs. Freeze and Mrs. G. M. Campbell will have charge of the tea room. Tea will be served all afternoon and the ladies have arranged a good supper for the business men and women to be served from 6 to 8. Don't forget. Everyone come and have a good supper in the tea room on bazaar night. Gypsy fortune telling and cup reading will be conducted by Mrs. Latif. Remember the date—Saturday, November 26th.

Alberta entries will again be heavy at the Chicago International Hay and Grain Show, according to Provincial Field Crops Commissioner W. J. Stephen, and some splendid samples from this province will compete with the best from all parts of the continent. Herman Treille of Wembley, winner of the world's championships in both wheat and oats at the 1926 show, will again be among the exhibitors this year. In addition to a number of prize-winners in previous years, the names of several new growers appear in the following list of entries received by Mr. Stephen: Arthur Morris, Vimy; Roland S. Young, Wembley; C. Edwards, Delta; Geo. L. Bailey, Mirror; J. C. Buckley, M.L.A., Gleichen; J. H. Coates, Duffield; R. H. MacDonald, Trochu; Thos. Knowles, Irma; W. A. Day, Macleod; H. G. Dunfield, Delta; Douglas Ward, Okotoks; W. G. Gair, Killam; H. Schellenberger, Spruce Grove; D. M. Moir, Sedgewick; John McPhee, Erskine; B. Harvie, Edgerton; R. A. Meeks, Mannville; Andrew McSparran, Chauvin; Nels Linden, Wetzawkin; R. H. Hancock, Rockford Bridge; Hans Mayer, Vegreville; Richard Harrison, Okotoks; Albert Strong, Calgary; A. R. Leslie, Strathmore; S. L. Phillips, Strathmore; and J. H. B. Smith, Wolf Creek. A number of entries not included in the above list are expected from the Brooks district.

THURSDAY, NOV. 10, 1927

NOTES AND COMMENT.

While the storm over the week-end was seasonal great relief was not forthcoming for the completion of threshing, and in some instances cutting. It would appear that about ten days would be required to finish up all the threshing in this vicinity. Sufficient snow has fallen to make the possible beginning of work again a matter of great doubt, the weather encountered in the near future being the factor that cannot be fathomed. Even under the most fortunate circumstances, however, there will be a considerable wait.

Local officials claim the pool member realized the best average price for his wheat last year, while other grain interests infer the individual buyer received the most for his grain. There is a chance here for every farmer to think he has had the best of it, and there appears to be quite a general disposition to take this view of the matter.

When the yields of wheat being realized in this district are taken into

consideration it is easy to realize in part why this has been the most difficult crop to harvest ever experienced. When the further fact that some of the heaviest crop was down and tangled, frequently necessitating cutting from one way, further light is shed on the matter. It is little wonder harvesting machinery of every kind was tried to the utmost, and frequently failed to stand up under the strain.

This has been a difficult year in which to try out combines and the controversy as to their adaptability here is far settled. In one respect, however, definite conclusions have been reached, and that is that where these machines can be utilized they are strikingly economical, and largely used would solve a labor situation that is becoming more aggravated year by year.

This year's Hallowe'en celebration was the mildest in effect that has occurred for some years here. There is still room for consideration, however, as to whether it is not time to stop everything that has or could have a taint of malice in it as part of such

an evening's amusement. The moment property damage occurs the license extended to the celebrants ceases and the authorities should not leave it to individual effort to check this sort of thing.

Members of the wheat pool are confronted with the fact that where their grain is low grade, verging on feed, the initial payment will not be sufficient to meet running expenses, much less new purchases. It would appear there will be considerable difficulty experienced in financing under such circumstances, and the larger the crop the greater the difficulty will be.

Montreal Gazette: Weather prophets are foretelling the character of the coming winter with their annual variety. Fishermen have seen the infallible portent of a hard winter in ducks flying south weeks ahead of schedule. Geese are on their way to warmer climates, and fish and furred creatures are reported to be signifying in the usual way that winter will be early and severe. Other prognosticators are equally emphatic that all the signs point to a winter both late and mild. No doubt all will be right

in periods.

To be shoveling snow before harvest is completed has been a feature of the last two years in Alberta. The combination is not a very satisfactory one.

CANADIAN PACIFIC

General News

The Alberta Hospital Association and the Alberta Association of Registered Nurses will hold their annual joint convention in Edmonton on November 21 and 22. One of the features of the meeting will be addresses delivered by Dr. McEachern, director of hospitals for the American College of Surgeons, who is recognized as the leading authority on hospital methods

on the continent.

A large shipment of salmon trout from Lake Athabasca to Chicago recently indicated a forward step in one of Alberta's growing industries. The Lake Athabasca Fisheries Ltd. has gone into the business of supplying the large markets of the United States with the popular product of Alberta lakes. A large plant and ice houses along with dwelling accommo-

dations for fifty employees have been erected and plans are made for further enlarging the business as the market demands.

Good prospects for the exportation of Alberta livestock to Japan now exist as a result of the visit of Captain T. Kawakami, of Yokohama, who has spent the past month looking into conditions in this province. Following the visit of H. A. Craig, deputy minister of agriculture, to the Orient two years ago and the trial shipment of stock sent over that time, the extensive interests in Japan which Captain Kawakami represents are interested in the importation of beef cattle for slaughter and beef and dairy cattle, horses and swine for breeding purposes. As a result, will greatly increase the volume of Alberta's trade with the Far East, if the plans at present contemplated materialize.

Edmonton, along with other cities in the West, is being investigated by the Hamilton Carhartt Mills Ltd., the largest manufacturers of overalls in the world, as a possible site for the establishment of a western factory and distributing centre. The Carhartt factory, it is stated, would employ some 50 persons and have an annual payroll of around \$50,000.

The Alberta Wheat Pool elevators established something of a record when they reported handlings of 670,000 bushels in one day.

The Alberta Wheat Pool terminal at Prince Rupert loaded the first cargo of wheat from the 1926 crop for Europe this week.

until now the majority of the fifth generation have the appearance of pure-bred sheep. This first cross showed a much greater improvement than any succeeding cross.

Records are kept of all feed used as well as all lambing and sales. For the year 1926 the balance sheet shows the total return from 94 breeding ewes to be \$868.12 with a total cost of feed and pasture of \$688.49 which leaves a profit of \$99.63 (labour excluded) or \$2.12 per head.

Ten ewes would be a very good beginning for the average farmer. This number could be pastured in small enclosures near the buildings until the profits from the sheep would pay for fencing larger fields.

The attention at lambing time with the shearing and dipping in June constitute most of the labour required. Coarse, cheap feeds may be utilized to good advantage and also many weeds around the buildings and fields are readily eaten by sheep.

Grade ewes can usually be purchased at prices from \$7 to \$10 per head.

There is Not Much Comfort in a Poor Heater!

Real economy is not found in buying a cheap article, but in the purchase of a good, substantial, serviceable article.

McCLARY'S FURNACETTE

will cost you more money but you get Real Heater in return.

A home evenly heated throughout with clean, healthy humidified air.

McClary's Furnacette gives you the same heating principles of a real furnace and saves you the high cost of installation.

It is constructed of heavy materials built to last and give service.

It is encased in a porcelain enamelled casing in Mahogany or Oak Finish, always clean and attractive as any piece of furniture.

Your service is backed by one of the largest manufacturers in Canada, and our ability to render you that service promptly.

W. C. HOSKINS

An Advertisement in THE CHRONICLE

will find or sell it for you

H. A. BROWN,
whose appointment as Vice-President and General Manager of General Motors of Canada at the age of 37, marks him as one of the youngest highest executives in the automobile industry. Mr. Brown has been connected with the General Motor organization for a number of years, having held the position of comptroller at Ottawa since September, 1921. He succeeded Lefebvre, who has assumed an important post with the Oakland Motor Car Company at Pontiac, Michigan.

Good Money In Sheep Raising

(Experimental Farms Note)

The profits from grade sheep at the Dominion Experimental Station at Scott, Sask., show that this class of stock may be a real asset to the farm business of northwestern Saskatchewan. The foundation of the flock at Scott consisted of grade range ewes of mixed breeding. Nothing but pure-bred rams have been used and these have been the means of strengthening the constitution of the flock and improving the type and fleece

WORLD HAPPENINGS BRIEFLY TOLD

A new mining area thought to be extremely rich in lead, zinc, silver and gold had been discovered in Northern Manitoba.

Lieut.-Col. R. G. "Jub" Thachay, M.C., who served with distinction in the Canadian forces in the Great War, died recently at Quebec.

Hill houses totalling approximately \$7,500,000 were incurred by half a dozen companies operating in the three prairie provinces during the past season.

One of the largest fish in the trout fishery caught in Alberta, if not the largest of the kind ever caught anywhere else in the Dominion, was taken out of the waters of Lake Athabasca recently by A. A. Arason, a 25 cents.

The city of Calgary has been presented with a model of the White Star Liner Caligari by officers of the stamping company, Leo Toldi, general passenger superintendent of the company, made the presentation.

Russia has notified the League of Nations that the Soviet Union will not be represented in the meetings of the preparatory commission on a disarmament conference it was announced at League headquarters at Geneva.

The Westminster Gazette announces that Miss Mercedes Gleitze, the Londoner who swam the English Channel, has been received the sash, crozier, ring and gloves emblematic of his office, from Pope Pius XI in an imposing consecration ceremony in St. Peter's.

Population statistics for the last six months totalled 100,000 persons as compared with 90,000 in the same six months of 1932. The gains over last year were made in April, May and June, while the July, August and September figures show a slight falloff.

Another proposed trans-Atlantic flight this year has been announced. Cesare Sabelli said he and three companies would attempt the 4,500 mile air jump from New York to Rome late in December, and that he hoped to land in the Eternal City on New Year's day.

Possibility Of War Remote

Last On Table: World A Lesson Says Austrian Ambassador

Possibility of another war is very remote in the opinion of Baron George Franckenstein, Austria ambassador to Great Britain.

"This last war taught us a lesson we will not specifically forget," said the Ambassador. "It was a colossal catastrophe that even now the world has not yet recovered from its blow."

The Baron is in Canada to arrange for the sending of Austrian presents to the Dominion to take up arms.

The strongest thing about the modern idea is that it isn't a dance in the first place, and after you learn it, it's no longer modern.

The only thing that stands between some people and the top of the ladder, is the ladder.

Canada's Mail Service

Has Reached Huge Proportions Since Concession Was Granted

Seventy-eight years ago on the 28th of July last the Imperial Government granted Canada the right to administer the post office, a concession which had been asked for years. Few now living can remember that event, and yet only those whose memories carry them back to at least the early years of Confederation are capable of realizing how unworkable the system must have seemed to the communication during the intervening decades. In fact, it is probably significant of our time that the younger generation seems to take it for granted that public service will always be there to support them, learning from experience of the conditions which obtained when the Dominion had its birth in 1867, and are therefore unable adequately to value the priviledge enjoyed by their parents.

The early service of the post office had reached great proportions. From the crudeness and inefficiency of the post office control passed into the hands of the local Government; seven years later, 1874, a mail contract was let, and since that time, the volume of mail has increased so rapidly that it represents something like \$15,000,000 per annum, involving the letting of about \$25,000,000 in stamps. We may get a notion of the volume of mail handled by the post office when we learn that if the postal service of Canada were to be discontinued, the volume of matter handled now were the same as at the commencement of the nineteenth century, the resultant receipts would be sufficient in a single year to pay the salaries of all the postmen in the country.

Yet the transmission of letters is not the sole function of the postal service of today. It is also the medium for an immense volume of financial and business, by means of orders and notices, as well as personal correspondence. In short, it is a highly intricate web woven with the entire economic and social life of the people. Perhaps the only way to appreciate it of its comprehensive value could be brought about would be by suspending it for a week or ten days.

Run Down in Health

Why Many Men and Women Are Badly Handicapped

Wherever there are men in health that it impairs the efficiency of your work as well as your power to enjoy your leisure, or obtain rest. The time you lose from work, if you do not go to bed, is a serious breakdown in your health. You should not make any mistake in this regard, for you will not be able to recover from a serious breakdown as easily as you can from a minor one.

HAS NO FEAR OF TROUBLE FROM FOREIGN MENACE

Edmonton.—Hon. J. G. Gardiner, Prime Minister of Saskatchewan, said the time has come to eye with Premier Peter Lougheed of Ontario, as to the infeasibility of Canada's constitution.

No objection to any necessary amendment of the British North America Act was taken by the provincial conference of provincial delegates, Mr. Gardiner maintains. "The Act has been amended before; if there is a necessity for it, then it will be amended again."

Saskatchewan has a special place to make at the conference, Mr. Gardiner stated. There are one or two problems of peculiar interest to Saskatchewan that will be discussed with the Federal Government. One of these being the feasibility of the Royal Canadian Mounted Police taking over the duties of the provincial forces.

In the matter of immigration, Saskatchewan has no fear of any Central European "menace."

"With the exception of the British immigration Association of Saskatchewan," he was asked, referring to an organization which recently broadcast an article criticizing the Federal Immigration Department.

"I have heard of it until I heard it mentioned in the Toronto papers," Mr. Gardiner replied.

In view of allegations as to the reported lack of good farm lands for immigrants, the premier was asked if it were true that much of the unoccupied land in Saskatchewan was held by American speculators. He did not think so.

"We have a wild lands tax, and anyone holding land for profits finds it very unprofitable," he said.

"Any American holding Saskatchewan land would be only too glad to sell it."

"The Hudson Bay Company has a great deal of good land, but it is not the railways, don't they get an exemption from taxation—is that holding land from settlers?" he was asked.

"They used to be exempt, but not now," was the reply. "But, now, for instance, we exempt for 20 years after they got the land. As a matter of fact they made it forty years by not taking out their patents, until, in 1905, the Federal Government took them out, so that the exemption dated from that time, until 1922. In 1922 we applied the wild lands tax to their unoccupied lands. Now they're glad to rent the lands for raising for the cost of the taxes."

Heavy Bookings For Grain Via Vancouver

Shipments For Three Months Will Total \$6,000,000

Vancouver.—Ocean tonnage to carry 36,000,000 bushels of Western Canadian wheat to the United States and to Europe has been booked for November, December and January. It was announced here. During December alone tonnage for 30,000,000 bushels has been fixed and shipping men believe that the wheat movement during January will require at least one hundred vessels.

During November space for 6,000,000 has been closed while January bookings already total 10,000,000 bushels.

Stunt Pilot Killed

Desau, Germany.—The Juncker Company's crack stunt pilot, Karl Plauth, was killed when his plane exploded while he was performing a stunt of 100 feet. The plane fell while he was executing a nose dive. He tried in vain to right the machine when he reached an altitude of 1,200 feet.

Arctic Explorer Granted Review

Washington, D.C.—Dr. Frederick A. Cook, Arctic explorer, was granted a United States supreme court review of his suit for release from Leavenworth federal prison, where he is serving a sentence of 14 years and 9 months for using the mail to defraud

Renew Timber Supplies

Vancouver.—The lands department has leased a plot of land near this city which formerly was part of this park. The land is green and has been planted artificially to renew timber supplies for a future generation.

Total Casualties In Boat Disaster

Bio Janeiro.—A total of 114 persons perished in the Princess Mafalda disaster off the coast of Brazil. It was shown that final figures made public by the local office of the Navazionale Generale Italiana, owners of the vessel. There were 946 survivors.

Research Bureau Of Education Urged

Would Develop System Of Instruction

Winnipeg.—Establishment of a Dominion research bureau of education for improving the teaching machinery in such a way that the youth of the nation will learn more. In the same vein, this was urged by Dr. Robert Fletcher, B.A., LL.D., department of education for Manitoba, speaking as president at the opening of the fourteenth annual meeting of the Canadian Association of Education.

Such a bureau would render every service to the provinces without encroaching in any way on the special educational prerogatives which belong to each and which all regard as being the province of Fletcher. He pointed out that the necessity for careful research in both the methods of teaching and the material to be taught was more and more forcing itself upon the attention of educationists.

Noted Author Loses Sight Of Right Eye

Both Tarkington, Threatened With Blindness, Is Undergoing Treatment

New York.—Henry C. Tarkington, author of "American Humor," the "Penobscot" series of boy stories and many other literary successes in novel, play and short story form, has lost the sight of his right eye and is undergoing treatment at the hands of Dr. George W. Blodgett,眼科医生, of the New York Eye and Ear Infirmary, to save the sight of his left eye, which has been threatened.

Thirty women were drowned at Embekka Beach, while 19 lost their lives at Embekka and Lackam. Lloyd's reported that 17 small vessels were destroyed by the gales, which reached a velocity of 90 miles an hour. Officials estimate several thousand bathers were wrecked by floods and winds.

League Now Virtually Universal In Scope

So Long As Nations Co-Operate Membership Not Essential

General Secretary of the League of Nations' dream of university propagation of the League's activities has become a reality. The United States is now participating in virtually all League activities, save those which are national, and the Soviet Government has decided to take part in the League's preparatory disarmament conference.

League observers contend eight years' experience has demonstrated it is not necessary that League nations are members of the international body so long as they willingly co-operate in the League's activities.

Both the Soviet Government and the League are continuing in the League's international activities, while Mexico has sent an official observer to the economic conference.

Thus Ecuador is virtually the only nation in the world not yet collaborating, and, therefore, the League now regards its activities and influence as virtually universal in scope.

Storm Takes Death Toll

Shipwrecks In Great Loss Of Life

London.—The death toll from the recent storms in the British Isles mounted to 71, with news of 50 shipwrecks detailed in yesterday's papers.

Thirty women were drowned at Embekka Beach, while 19 lost their lives at Embekka and Lackam.

Lloyd's reported that 17 small vessels were destroyed by the gales, which reached a velocity of 90 miles an hour. Officials estimate several thousand bathers were wrecked by floods and winds.

SAYS CONDITIONS IN CANADA ARE NOW EXCELLENT

Canadian Industrial Conditions 100% Good

King George Expresses Gratitude Over Settlement of Flag Controversy

Capetown, South Africa.—A message from King George expressing gratification over the amicable settlement of the flag controversy in South Africa was read in the House of Assembly yesterday. An appreciative applause.

The message was read by Premier J. D. M. Hertzog, as follows:

"I wish to express my heartfelt satisfaction over the solution of the flag question, and especially over the spirit of tolerance, conciliation and goodwill which has been shown by all parties to my invite to attend the opening of the Commonwealth Conference."

Victory Loans Redeemed

Twenty-nine Millions Dollars In Bonds From First Review

Ottawa—Canada's first review of 20,000 million dollars in per cent five-year Victory renewal loans, Hon. J. A. Robb, Minister of Finance, has announced. The amount was reduced from revenue, Mr. Robb intimated.

A further Dominion maturity of sixty-three millions in 5½ per cent. Victory loan is due on December 1.

U.S. Consulate At Nanking Robbed

Peking.—The safe of the United States consulate at Nanking has been broken open and its contents stolen, according to official reports to foreign sources here from Nanking. The contents included coluber silver helmets belonging to John K. Davis, the consul. Reporters of the consulate correspondents are digging hawkishly on the streets of Nanking for a few cents as waste paper.

Hen Sells For \$500

Vancouver.—An announcement has been made by the poultry department of the University of British Columbia of the sale of a White Leghorn hen for \$500. The hen was known as F. 319, and was exhibited at Ottawa last summer. Last year she laid 375 eggs in 355 days. F. A. Sammons, Greenwich, Conn., is the purchaser.

Another Use For X-Rays

Dallas, Tex.—Doctors at Baylor University Hospital are using X-rays to determine whether a person with a Kenny wheeler or a person is hungry. Experiments have been made for some time in observing the hunger contractions of the stomach muscles, but it was only recently that the action could be clearly seen and photographed.

Sister of Conservative Leader

Here is the new Conservative leader's "twin sister," Miss Mildred Bennett, sister of Hon. R. B. Bennett, from a recent photograph.

Shipwrecks In Great Loss Of Life

London.—The death toll from the recent storms in the British Isles mounted to 71, with news of 50 shipwrecks detailed in yesterday's papers.

Thirty women were drowned at Embekka Beach, while 19 lost their lives at Embekka and Lackam.

Lloyd's reported that 17 small vessels were destroyed by the gales, which reached a velocity of 90 miles an hour. Officials estimate several thousand bathers were wrecked by floods and winds.

As a result of the price war, it is

now 17 shillings more expensive to go from London to Paris by air than by first class railroad fare and the saving of time is four and a half hours.

Alberta Mine Strike Ended

All Mines in Affected Area Are Resuming Operations

Drumheller, Alta.—Strikes of the Canadian miners in the coal fields of this district came to an end, and with the exception of one mine, which was temporarily held up because of damage to its machinery, all mines were resuming operations again.

The men gained nothing by the two weeks' strike and lost a lot of money in wages, for between 800 and 1,600 men were affected. The miners will continue to work under rigid rules, the miners failing to receive adequate recognition of their union, for which they were on strike.

Want Expert Advice

Mexico City.—Sir Henry W. Thornton, president of the Canadian National Railways, has been invited to come to Mexico City to study the financial condition of the Mexican railroads and to suggest a plan for their reorganization in order to place them on a paying basis, the Mexican treasury department has announced officially. The invitation was extended to Sir Henry by President Cárdenas.

"We have more calls at Montreal," said Mr. Thornton, "but we have about 100 calls at San Luis Potosí," said Mr. Field. He emphasized that one cannot sell to Canada, at long range because it is a market, above all others, in which the seller must go to the buyer.

Entire Crew of Jap Vessel Die of Starvation

Entire Crew of Jap Vessel Die of Starvation

Asking Protection For Salmon Fields

Delegation From B.C. May Request Government To Enforce Closed Seas

Ottawa.—A delegation representing the fishing industry in British Columbia has gone to Ottawa prepared to meet Federal Government officials regarding the conservation of salmon and other fish in the coastal and inland waters.

J. N. Ellis, of Vancouver, one of the delegates, states that it is quite likely the government will be asked to enforce a closed season in order to safeguard the future supply of salmon.

White Slaves Active

Hamilton.—Following rumors of a narcotics drug ring and white slaves being active in this city, the police have arrested a number of persons, including a woman, and are holding sufficient money from their car driving, to commence in due time a closed season.

The last of the two Japanese were found in bunks in the tiny dark cabin aft of the engine room. They were in natural positions as if the men had failed to awaken from a deep sleep.

The boat was about 3½ feet long, 15-foot length and 12 feet depth, was equipped with a gasoline engine in addition to canvas and bamboo rags.

The boat was torn to shreds by gales and started leaking the day after it was twisted and bent. The hull was half-encircled and dragging seaweed two feet in length.

Barley-decked Japanese claim they were picked up by the freighter Margaret Dollar off the Washington coast and towed to the gunboat.

owing to difficulties experienced in
switching from gas power to an elec-
tric motor much interesting news
matter is carried over.

Many contracts covering large acre-
ages are being received by the Alberta
Wheat Pool. J. J. Bowes of Cal-
gary, who has a farm of 1,000 acres
located in Southern Alberta, has signed
a contract; also Nat Bryant of Hus-
ter has placed his six sections under
a Pool contract.

Everyone will be talking soon about
the forest fire in this New Woods
timber region. Curious will be the
story—one of the most popular. And
it has been produced in a big way—
thrill on thrill, with the forest fire as a
climax you'll remember. See it—
"The Flaming Forest."

H. W. Good, president of the board
of directors of the Alberta Wheat
Pool, told the Calgary Kiwanis Club
in the course of an address, that if
the farmers cannot sell their own
wheat scientifically there is little hope
for agriculture in Canada.

Alberta's optimism which has carried
her through some comparatively
lean years has been justified. Not
only are the farmers of the province
at present engaged in the garnering
of a record crop, and the market
value of the titles paid for heavy de-
mand as soon as the work in the
fields is completed, but the livestock
industry is showing signs of ap-
proaching a record period after a
number of years of struggle. The
stock at the present time compared with
the Calgary fall show and sale the
prices realized were beyond the ex-
pectations of even the most optimis-
tic.

The trend of the market during the
past month had been favorable to the
industry. Conditions in the United
States, where a shortage of cattle
is reported, have done a great deal
toward raising the price level. But
the prices received at the Calgary
auction were nevertheless a pleasant
shock to sellers.

Officers of the show and sale, who
have been connected with auctions
here for more than 20 years state
that they do not remember an occa-
sion when such excellent prices were
obtained for sheep as during the sales
on this occasion.

The future of the main industries of
the province looks brighter at the
moment than for years.

Many good herds of Alberta cattle
will again be represented this year
at the Toronto Royal and Chicago
International livestock shows by
steers contributed by various breeders
in the province and fitted by the
department of animal husbandry, University
of Alberta. It is expected that the
shipments will begin during the past
week for Toronto are five Aberdeen
Angus steers, four Herefords and nine
Shorthorns, comprising one of the best
exhibits ever sent from Alberta to
the western shows. The Aberdeen
Angus herd includes one from the
Thompson herd at Vegreville, one
from Dickson and Hunter at Innis-
free, one from C. H. Richardson of
Bowden and two from the University
farm. Three University-bred
Herefords and one from the
Carruthers and one from the
Carruthers Ranch at Lethbridge make up the
entries for that breed while the Shorthorns
include animals from the herds of G. M. Thomas of Youngstown, and
W. W. Sharp of Stettler, and four
pure-breds and one grade from the
U.S. Department of Agriculture. The herd
will be shown in various classes at the
Toronto Royal, following which nine
or ten head will go on to face the
keen competition at the International.
Seven choice Hampshire sows
will also represent the University
flock at the Toronto show.

**Better the Man with
His Eye to the Sky
than the Man with
His Ear to the Ground**

ALL through its long, successful history, General
Motors of Canada has had its eye to the horizon
always, listening not for what followed, but looking
always toward the thing ahead.

And General Motors has seen many of its visions
realized.

It has seen a great industry grow up in Canada to
supply the Canadian family with a means of trans-
portation to meet its needs and resources, to answer
the desire for style, dependability, luxury.

It has seen, in the Canadian Fisher Body plants, the
perfection of the modern ideals of assembly-line

It has seen, in the General Motors Research labora-
tories, the development of countless advances and
refinements on which much of modern motoring com-
fort depends.

It has seen, on the General Motors Proving Grounds,
the proof of principles which are now accepted
fact, and which are now common practice.

It has seen the triumph of co-operative purchasing
and manufacturing methods with their resultant
economies to be shared with the buyers of General
Motors cars.

And the eyes of General Motors are still to the
horizon . . . still seeking new ways to improve
General Motors cars and to place the cars within
reach of ever-widening circles of Canadian buyers.

*Tune in on a Westinghouse
for knowledge*

There's no strain or tension listening to the travologues
a Westinghouse Radio brings to your home.

The speaker's words come through clear, distinct and
understandable.

World celebrities, travellers, scientists, news correspondents
and a host of other interesting lecturers are the delight of
millions of homes over the radio.

Are you missing this modern and most fascinating medium
of keeping abreast of the world's news? Is not the life and work
of its people its thrill, its leading topics and events of
universal interest? Don't miss it.

Get a Westinghouse Radio and bring to your growing family the latest
storehouse of culture and advancement that has ever existed.

Today, you can learn what a Westinghouse will mean
to your home. A demonstration involves no obligation.
